Subject index*

A

Accelerated intermittent harmonic imaging

Detection of angiographically significant coronary artery disease with accelerated intermittent imaging after intravenous administration of ultrasound contrast material (Cwaig et al). 2000;139:675-83

Acute coronary syndrome

Age and outcome after acute coronary syndromes without persistent ST-segment elevation (Hasdai et al). 2000;139:859-66
Cigarette smoking status and outcome among patients with acute coronary syndromes without persistent ST-segment elevation: effect of inhibition of platelet glycoprotein IIb/IIIa with eptifibatide (Hasdai et al). 2000;139:454-60
Effect of leukocytosis at initial examination on prognosis in patients with primary unstable angina (Lloyd-Jones et al). 2000;139:867-73
Efficacy of low-molecular-weight heparin in acute coronary syndromes (Wallentin). 2000;139:S29-S32
Patient-specific dosing of IIb/IIIa antagonists during acute coronary syndromes: rationale and design of the PARAGON B study (Moliterno et al). 2000;139:563-6
Platelet glycoprotein IIb/IIIa receptor blockers: an appropriate-use model for expediting care in acute coronary syndromes (Kereiakes et al). 2000;139:S53-S60
Predictors of recurrent ischemic events and death in unstable coronary artery disease after treatment with combination antithrombotic therapy (Cohen et al). 2000;139:962-70
Stents covered by autologous venous grafts: feasibility and immediate and long-term results (Stefanadis et al). 2000;139:437-45
Will the use of low-molecular-weight heparin (enoxaparin) in patients with acute coronary syndrome save costs in Canada? (O'Brien et al). 2000;139:423-9

Acute myocardial infarction

Acute myocardial infarction in young adults: prognostic role of angiotensin-converting enzyme, angiotensin II type I receptor, apolipoprotein E, endothelial constitutive nitric oxide synthase, and glycoprotein IIIa genetic polymorphisms at medium-term follow-up (Brscic et al). 2000;139:979-84
Association between total homocyst(e)line and the likelihood for a history of acute myocardial infarction by race and ethnicity: results from the Third National Health and Nutrition Examination Survey (Giles et al). 2000;139:446-53
Beneficial effect of prodromal angina pectoris is lost in elderly patients with acute myocardial infarction (Ishihara et al). 2000;139:881-8
Benefits of magnesium in acute myocardial infarction: timing is crucial (Gyamlani et al). 2000;139:e2
Changes over time in the incidence and case-fatality rates of primary ventricular fibrillation complicating acute myocardial infarction: perspectives from the Worcester Heart Attack Study (Thompson et al). 2000;139:1014-21
Characteristics and outcomes in patients with acute myocardial infarction with ST-segment depression on initial electrocardiogram (Mahon et al). 2000;139:311-9
Clinical significance of variable of ventricular late potentials detected before discharge in patients after myocardial infarction (Kozer et al). 2000;139:134-41

Clinical trials in acute myocardial infarction: should we adjust for baseline characteristics? (Steyerberg et al). 2000;139:745-51
Clinical trials in acute myocardial infarction: when should we adjust for baseline characteristics? (Bailey). 2000;139:761-3 (Editorial)
Collaborative Angiographic Patency Trial of Recombinant Staphylokinase (CAPTORS) (Armstrong et al). 2000;139:820-3
Combination therapy for acute myocardial infarction: fibrinolytic therapy and glycoprotein IIb/IIIa inhibition (Califf). 2000;139:S33-S37
A comparison of electrocardiographic changes during reperfusion of acute myocardial infarction by thrombolysis or percutaneous transluminal coronary angioplasty (Wehrens et al). 2000;139:431-6
Comparison of the effects of alternate-day aspirin 81 mg and daily aspirin 162 mg on in-hospital cardiovascular events after myocardial infarction: an open-label, controlled, randomized clinical trial (Yasue et al). 2000;139:e4
Effect of leukocytosis at initial examination on prognosis in patients with primary unstable angina (Lloyd-Jones et al). 2000;139:867-73
Enhancing cardiac protection after myocardial infarction: rationale for newer clinical trials of angiotensin receptor blockers (Pfeffer). 2000;139:S23-S28
Guidelines for the diagnosis and management of unstable angina and non-Q-wave myocardial infarction: proposed revisions (Antman et al). 2000;139:461-75
Management of heart failure among very old persons living in long-term care: has the voice of trials spread? (Gambassi et al). 2000;139:85-93
Medicaid, managed care, and the care of patients hospitalized for acute myocardial infarction (Sloan et al). 2000;139:567-77
Monitoring trends in severity of acute myocardial infarction: challenges for the next millennium (Goldberg). 2000;139:768-70 (Editorial)
Neutrophilia and congestive heart failure after acute myocardial infarction (Kyne et al). 2000;139:94-100
Nonrandomized comparison between stent deployment and percutaneous transluminal coronary angioplasty in acute myocardial infarction (Katz et al). 2000;139:44-51
Predictors of death and reinfarction at 30 days after primary angioplasty: the GUSTO IIb and RAPPORT trials (Brenner et al). 2000;139:476-81
Prehospital delay time in acute myocardial infarction: an exploratory study on relation to hospital outcomes and cost (Caldwell et al). 2000;139:788-96
Primary intracoronary stenting in acute myocardial infarction: long-term clinical and angiographic follow-up and risk factor analysis (Kastrati et al). 2000;139:208-16
Rationale and design of the Magnesium in Coronaries (MAGIC) study: a clinical trial to reevaluate the efficacy of early administration of magnesium in acute myocardial infarction (MAGIC Steering Committee). 2000;139:10-4
Reduction of congestive heart failure symptoms by very early fibrinolytic therapy in acute myocardial infarction: a long-term follow-up (Gilon et al). 2000;139:1096-1100
Review of immediate angioplasty after fibrinolytic therapy for acute myocardial infarction: insights from the RESCUE II, RESCUE II, and other contemporary clinical experiences (Ellis et al). 2000;139:1046-53
Sex differences in coronary artery size assessed by intravascular ultrasound (Sheifer et al). 2000;139:649-53
When is angina good? Preconditioning in acute myocardial infarction (Granger). 2000;139:771-2 (Editorial)

Acute transmural myocardial infarction

Neutrophils and altered myocardial function (Kilgore et al). 2000;139:32-4 (Editorial)

Age factors

A comparison of nicorandil with isosorbide mononitrate in

*January, part 1, pp. 1-184; part 2, pp. S1-S28; February, part 1, pp. 185-370; part 2, S29-S60; part 3, S61-S130; March, pp. 371-562; April, pp. 563-744, S131-S210; May, pp. 745-926; June, pp. 927-1113.

Age factors—Cont'd

elderly patients with stable coronary heart disease: the SNAPE study (Ciampicotti et al). 2000;139:e3

Aged

- Aortic atheroma morphology and the risk of ischemic stroke in a multiethnic population (Di Tullio et al). 2000;139:329-36
- Beneficial effect of prodromal angina pectoris is lost in elderly patients with acute myocardial infarction (Ishihara et al). 2000;139:881-8
- Effects of losartan and captopril on left ventricular volumes in elderly patients with heart failure: results of the ELITE ventricular function substudy (Konstam et al). 2000;139:1081-7
- Factors associated with delay in reperfusion therapy in elderly patients with acute myocardial infarction: analysis of the Cooperative Cardiovascular Project (Berger et al). 2000;139:985-92
- Management of heart failure among very old persons living in long-term care: has the voice of trials spread? (Gambassi et al). 2000;139:85-93
- Predictors of readmission among elderly survivors of admission with heart failure (Krumholz et al). 2000;139:72-7
- Transpulmonary passage of Albutenex as a marker of intracardiac hemodynamics and outcome in chronic congestive heart failure (Sherman et al). 2000;139:782-7

AHA at the Meetings

- Highlights from the American Heart Association 72nd Scientific Sessions: November 6 to 10, 1999 (McGuire et al). 2000;139:359-70

Alcohol

- Alcohol consumption and plasminogen activator inhibitor type 1: the National Heart, Lung, and Blood Institute Family Heart Study (Djoussé et al). 2000;139:704-9

Altered myocardial function

- Neutrophils and altered myocardial function (Kilgore et al). 2000;139:32-4 (Editorial)

American Heart Association

- Cardiology, for what it's worth (Kandzari et al). 2000;139:392-3 (Editorial)

Angina

- When is angina good? Preconditioning in acute myocardial infarction (Granger). 2000;139:771-2 (Editorial)

Anginal chest pain

- A double-blind, randomized study of the effect of immediate intravenous nitroglycerin on the incidence of postprocedural chest pain and minor myocardial necrosis after elective coronary stenting (Kurz et al). 2000;139:35-43

Angiographic follow-up

- Primary intracoronary stenting in acute myocardial infarction: long-term clinical and angiographic follow-up and risk factor analysis (Kastrati et al). 2000;139:208-16

Angiography

- Three-dimensional helical computed tomographic angiography in neonates and infants with complex congenital heart disease (Kawano et al). 2000;139:654-60

Angioplasty procedures

- Suture closure of femoral arterial puncture sites after coronary angioplasty followed by same-day discharge (Carere et al). 2000;139:52-8

Angiotensin

- Cardiac protection: evolving role of angiotensin receptor blockers (Califf et al). 2000;139:S15-S22

Angiotensin II

- Neurohormonal modulation in cardiovascular disease (Unger). 2000;139:S2-S8

Angiotensin II type 1

- Angiotensin II type 1 receptor gene polymorphism and mitral valve prolapse syndrome (Szombathy et al). 2000;139:101-5

Angiotensin-converting enzyme (ACE) inhibitors

- Randomized trial of candesartan cilexetil in the treatment of patients with congestive heart failure and a history of intolerance to angiotensin-converting enzyme inhibitors (Granger et al). 2000;139:609-17

Antiarrhythmic drugs

- An FDA perspective on antiarrhythmic drugs in phase II trials (Lipicky). 2000;139:S197-S199
- Development of antiarrhythmic drugs (Fisher). 2000;139:S200-S201

Antiarrhythmic therapy

- Long-term follow-up of patients requiring intravenous amiodarone to suppress hemodynamically destabilizing ventricular arrhythmias (Fogel et al). 2000;139:690-5

Antiarrhythmics Versus Implantable Defibrillators (AVID) Study

- Determinants of outcome in patients with sustained ventricular tachyarrhythmias: the Antiarrhythmics Versus Implantable Defibrillators (AVID) Study Registry (Pinski et al). 2000;139:804-13

Antiatherosclerotic therapy

- Statins: effective antiatherosclerotic therapy (Blumenthal). 2000;139:577-86

Aortic coarctation

- Early results and medium-term follow-up of stent implantation for mild residual or recurrent aortic coarctation (Marshall et al). 2000;139:1054-60
- Endovascular stent treatment of aortic coarctation (Sanders). 2000;139:936-8 (Editorial)

Aortic regurgitation

- Strategy for optimal aortic regurgitation quantification by Doppler echocardiography: agreement among different methods (Evangelista et al). 2000;139:773-81

Aortic valve disease

- Sensitivity and specificity of transesophageal echocardiography for determination of aortic valve morphology (Espinal et al). 2000;139:1071-6

Arrhythmia

- High-dose bolus lidocaine for chemical cardioversion of atrial fibrillation: a prospective, randomized double-blind crossover trial (Marrouche et al). 2000;139:e6

Arrhythmia prevention

- Magnesium supplementation in the prevention of arrhythmias in pediatric patients undergoing surgery for congenital heart defects (Dorman et al). 2000;139:522-8

Arterial thromboembolic disorders

- Therapeutic heparin concentrations augment platelet reactivity: implications for the pharmacologic assessment of the glycoprotein IIb/IIIa antagonist abciximab (Mascelli et al). 2000;139:696-702

Atherosclerosis

- Design of the blockade of the Glycoprotein IIb/IIIa Receptor to avoid vascular occlusion (BRAVO) trial (Topol et al). 2000;139:927-33
- Serial quantitative coronary angiography and coronary events (Mack et al). 2000;139:993-9

Atherosclerosis Risk in Communities (ARIC) Study, The

- Trends in severity of hospitalized myocardial infarction: the Atherosclerosis Risk in Communities (ARIC) Study, 1987-1994 (Goff et al). 2000;139:874-9

Aspirin

- Comparison of the effects of alternate-day aspirin 81 mg and daily aspirin 162 mg on in-hospital cardiovascular events after myocardial infarction: an open-label, controlled, randomized clinical trial (Yasue et al). 2000;139:e4

Athletes; see also Exercise factors; Sports medicine

- Aortic root dilation among young competitive athletes: echocardiographic screening of 1929 athletes between 15 and 34 years of age (Kinoshita et al). 2000;139:723-8

Atrial fibrillation

- Appropriate outcome measures in trials evaluating treatment of atrial fibrillation (Connolly). 2000;139:752-60
- Clinical study to investigate the predictive parameters for the onset of atrial fibrillation in patients with essential hypertension (Ciaroni et al). 2000;139:814-9
- Continuous intravenous quinidine infusion for the treatment of atrial fibrillation or flutter: a case series (LaPointe et al). 2000;139:114-21
- High-dose bolus lidocaine for chemical cardioversion of atrial fibrillation: a prospective, randomized double-blind crossover trial (Marrouche et al). 2000;139:e6
- Inappropriate therapy from atrial fibrillation and sinus tachycardia in automated implantable cardioverter defibrillators (Nanthakumar et al). 2000;139:797-803
- Prevalence and characteristics of escape rhythms after radiofrequency ablation of the atrioventricular junction: results from the Registry for AV Junction Ablation and Pacing in Atrial Fibrillation (Curtis et al). 2000;139:122-5
- Transesophageal echocardiography guided enoxaparin antithrombotic strategy for cardioversion of atrial fibrillation: the ACUTE II pilot study (Murray et al). 2000;139:e5

Atrial septal aneurysms

- Low incidence of embolic strokes with atrial septal aneurysms: a prospective, long-term study (Burger et al). 2000;139:149-52

Atrioventricular junction

- Prevalence and characteristics of escape rhythms after radiofrequency ablation of the atrioventricular junction: results from the Registry for AV Junction Ablation and Pacing in Atrial Fibrillation (Curtis et al). 2000;139:122-5

B

Balloon angioplasty

- Role of cutting balloon angioplasty before coronary stent implantation (Park et al). 2000;139:e1

β_2 -Adrenergic receptor polymorphisms

- β_2 -Adrenergic receptor polymorphisms at amino acid 16 differentially influence agonist-stimulated blood pressure and peripheral blood flow in normal individuals (Hoit et al). 2000;139:537-42

β -Blocker improvement

- β -Blocker improvement in diastolic performance: the yin and yang of ventricular function changes (Eichhorn et al). 2000;139:584-6 (Editorial)

β -Blocker therapy

- Myocardial integrated ultrasonic backscatter in patients with dilated cardiomyopathy: prediction of response to β -blocker therapy (Suwa et al). 2000;139:905-12
- β -Blockade therapy in chronic heart failure: diastolic function and mitral regurgitation improvement by carvedilol (Capomolia et al). 2000;139:596-608

β -Blockers

- Diuretics and β -blockers: is there a risk for dyslipidemia? (Weir et al). 2000;139:174-84
- A rationale for the use of β -blockers as standard treatment for heart failure (Metra et al). 2000;139:511-21

Bicuspid aortic valve

- Sensitivity and specificity of transesophageal echocardiography for determination of aortic valve morphology (Espinal et al). 2000;139:1071-6

Bleeding

- Clinical challenges of platelet glycoprotein IIb/IIIa receptor inhibitor therapy: bleeding, reversal, thrombocytopenia, and retreatment (Tcheng). 2000;139:S38-S45

Blood pressure

- β_2 -Adrenergic receptor polymorphisms at amino acid 16 differentially influence agonist-stimulated blood pressure and peripheral blood flow in normal individuals (Hoit et al). 2000;139:537-42

Bradyarrhythmia

- Relations among hypoxemia, sleep stage, and bradyarrhythmia during obstructive sleep apnea (Koehler et al). 2000;139:142-8

Bypass surgery

- Continuous intravenous quinidine infusion for the treatment of atrial fibrillation or flutter: a case series. 2000;139:114-21
- Effect of variability in the interpretation of coronary angiograms on the appropriateness of use of coronary revascularization procedures (Leape et al). 2000;139:106-13
- Multivessel coronary stenting versus bypass surgery in patients with multivessel coronary artery disease and normal left ventricular function: immediate and 2-year long-term follow-up (Kim et al). 2000;139:638-42
- Understanding racial differences in cardiovascular care and outcomes: issues for the new millennium (East et al). 2000;139:764-6 (Editorial)

C

Calcium channel blockers

- Effects of amlodipine on exercise tolerance, quality of life, and left ventricular function in patients with heart failure from left ventricular systolic dysfunction (Udelson et al). 2000;139:503-10
- Efficacy and safety of calcium channel blockers in heart failure: focus on recent trials with second-generation dihydropyridines (de Vries et al). 2000;139:185-94

Cardiac arrhythmia

- Appropriate outcome measures in trials evaluating treatment of atrial fibrillation (Connolly). 2000;139:752-60
- Continuous intravenous quinidine infusion for the treatment of atrial fibrillation or flutter: a case series. 2000;139:114-21

Cardiac Arrhythmia Pilot Study (CAPS)

- Development of antiarrhythmic drugs (Fisher). 2000;139:S200-S201

Cardiac catheterization

- Quantification of mitral regurgitation in the cardiac catheterization laboratory with contrast echocardiography (Buckley et al). 2000;139:1109-13
- Understanding racial differences in cardiovascular care and outcomes: issues for the new millennium (East et al). 2000;139:764-6 (Editorial)

Cardiac chest pain

- Role of soluble and platelet-bound P-selectin in discriminating cardiac from noncardiac chest pain at presentation in the emergency department (Gurbel et al). 2000;139:320-8

Cardiac cycles

- β -Blocker improvement in diastolic performance: the yin and yang of ventricular function changes (Eichhorn et al). 2000;139:584-6 (Editorial)

Cardiac defibrillators

- Inappropriate therapy from atrial fibrillation and sinus tachycardia in automated implantable cardioverter defibrillators (Nanthakumar et al). 2000;139:797-803

Cardiac Insufficiency Bisoprolol Study (CIBIS)

- Predictors of medical events in patients enrolled in the Cardiac Insufficiency Bisoprolol Study (CIBIS): a study of the interactions between β -blocker therapy and occurrence of critical events using analysis of competitive risks (Funck-Brentano et al). 2000;139:262-71

Cardiac procedures

Severity of coronary artery disease in black and white male veterans and likelihood of revascularization (Peniston et al). 2000;139:840-7

Cardiac protection

Cardiac protection: evolving role of angiotensin receptor blockers (Califf et al). 2000;139:S15-S22
Enhancing cardiac protection after myocardial infarction: rationale for newer clinical trials of angiotensin receptor blockers (Pfeffer). 2000;139:S23-S28

Cardiac structural changes

New insights in cardiac structural changes in patients with Fabry's disease (Linhart et al). 2000;139:1101-8

Cardiology

Appropriate outcome measures in trials evaluating treatment of atrial fibrillation (Connolly). 2000;139:752-60
Cardiology, for what it's worth (Kandzari et al). 2000;139:392-3 (Editorial)
Clinical trials in acute myocardial infarction: should we adjust for baseline characteristics? (Steyerberg et al). 2000;139:745-51
Prevalence of nonfatal coronary heart disease among American adults (Ford et al). 2000;139:371-7
Three-dimensional echocardiographic assessment of annular shape changes in the normal and regurgitant mitral valve (Kaplan et al). 2000;139:378-87
When not doing tests is the right thing to do (Gibbons). 2000;139:388-9 (Editorial)

Cardiomyopathy; see also Dilated cardiomyopathy

Introduction (Feldman). 2000;139:S61-S62
Design and implementation of the North American Pediatric Cardiomyopathy Registry (Grenier et al). 2000;139:S86-S95
Mitochondrial defects in cardiomyopathy and neuromuscular disease (Wallace). 2000;139:S70-S87

Cardiovascular conditions

Rationale and design of the OPTIME CHF trial: outcomes of a Prospective Trial of Intravenous Milrinone for Exacerbations of Chronic Heart Failure (Cuffe et al). 2000;139:15-22

Cardiovascular disease

Introduction (Califf et al). 2000;139:S131-S132
Changes in lipoprotein(a) concentration after orthotopic heart transplantation (DeNofrio et al). 2000;139:729-33
Current definitions of phases of investigation and the role of the FDA in the conduct of clinical trials (Temple). 2000;139:S133-S135
Enhancing recovery in coronary heart disease patients (ENRICHD): study design and methods (ENRICHD investigators). 2000;139:1-9
Neurohormonal modulation in cardiovascular disease (Unger). 2000;139:S2-S8

Cardiovascular disorders

Pericardial and pleural effusions in decompensated chronic heart failure (Kataoka). 2000;139:918-23

Cardiovascular medicine

Acute ischemic heart disease (Granger et al). 2000;139:S189-S192
Chronic ischemic heart disease (Gent et al). 2000;139:S182-S188
Introduction (Califf et al). 2000;139:S131-S210
Design and interpretation of equivalence trials (Fleming). 2000;139:S171-S176
Development of antiarrhythmic drugs (Fisher). 2000;139:S200-S201
Economic end points in phase II trials (Mark et al). 2000;139:S155-S157
Equivalence and noninferiority trials (Siegel). 2000;139:S166-S170
Estimating the distribution of quality-adjusted life with censored data (Tsiatis). 2000;139:S177-S181
How should phase II trials in cardiovascular medicine be conducted? (Califf et al). 2000;139:S131-S132

Role of clinical nonfatal end points in cardiovascular Phase II/III clinical trials, The (O'Connor et al). 2000;139:S143-S154
Sample size and interim analysis issues for close selection (Lee). 2000;139:S161-S165

Subgroups, treatment effects, and baseline risks: some lessons from major cardiovascular trials (Parker et al). 2000;139:952-61

Surrogate end points in cardiovascular disease trials (Fleming). 2000;139:S193-S196

Carnitine

Regulation of carbohydrate metabolism in ischemia and reperfusion (Lopaschuk). 2000;139:S115-S119

Carnitine transporter defect

Familial carnitine transporter defect: a treatable cause of cardiomyopathy in children. (Pierpont et al). 2000;139:S96-S106

Carvedilol therapy

β -Blockade therapy in chronic heart failure: diastolic function and mitral regurgitation improvement by carvedilol (Capomolla et al). 2000;139:596-608

Chemical cardioversion

High-dose bolus lidocaine for chemical cardioversion of atrial fibrillation: a prospective, randomized, double-blind crossover trial (Marrouche et al). 2000;139:e6

Chest pain; see also Anginal chest pain; Cardiac chest pain; Noncardiac chest pain

Angiotensin II type 1 receptor gene polymorphism and mitral valve prolapse syndrome (Szombathy et al). 2000;139:101-5

Child

Familial carnitine transporter defect: a treatable cause of cardiomyopathy in children. (Pierpont et al). 2000;139:S96-S106
Cardiomyopathy in childhood, mitochondrial dysfunction, and the role of L-carnitine (Winter et al). 2000;139:S63-S69

Cholesterol

Association of remnant-like particle cholesterol with coronary artery disease in patients with normal total cholesterol levels (Masuoka et al). 2000;139:305-10
Benefits of lipid lowering on vascular reactivity in patients with coronary artery disease and average cholesterol levels: a mechanism for reducing clinical events? (Cohen et al). 2000;139:734-8

Chronic asymptomatic aortic regurgitation

Vasodilatation with felodipine in chronic asymptomatic aortic regurgitation (Sondergaard et al). 2000;139:667-74

Chronic heart failure

Five-minute recording of heart rate variability in severe chronic heart failure: correlates with right ventricular function and prognostic implications (Lucreziotti et al). 2000;139:1088-95
Pericardial and pleural effusions in decompensated chronic heart failure (Kataoka). 2000;139:918-23
Predictors of medical events in patients enrolled in the Cardiac Insufficiency Bisoprolol Study (CIBIS): a study of the interactions between β -blocker therapy and occurrence of critical events using analysis of competitive risks (Funck-Brentano et al). 2000;139:262-71
Rationale and design of the OPTIME CHF trial: outcomes of a Prospective Trial of Intravenous Milrinone for Exacerbations of Chronic Heart Failure (Cuffe et al). 2000;139:15-22
Relation of changes over time in ventricular size and function to those in exercise capacity in patients with chronic heart failure (Florea et al). 2000;139:913-7
 β -Blockade therapy in chronic heart failure: diastolic function and mitral regurgitation improvement by carvedilol (Capomolla et al). 2000;139:596-608
Three-year survival of patients with heart failure caused by dilated cardiomyopathy and L-carnitine administration (Rizos). 2000;139:S120-S124

Chronic immune activation

- Helicobacter pylori* and chronic immune activation (Ledochowski et al) (Letter); (Arbustini and Morbini) (Reply). 2000;139:925-8

Chronic obstructive pulmonary disease

- Safety assessment of perflubron emulsion for echocardiographic contrast enhancement in patients with congestive heart failure or chronic obstructive pulmonary disease (Kitzman et al). 2000;139:1077-80

Circadian patterns

- Relation between circadian patterns in levels of circulating lipoprotein(a), fibrinogen, platelets, and related lipid variables in men (Brenner et al). 2000;139:164-73
- trials (Lipicky). 2000;139:S197-S199

Clinical trials; see also Phase II clinical trials; Phase III clinical trials

- An FDA perspective on antiarrhythmic drugs in phase II
- Clinical challenges of platelet glycoprotein IIb/IIIa receptor inhibitor therapy: bleeding, reversal, thrombocytopenia, and retreatment (Tcheng). 2000;139:S38-S45
- Clinical trials in acute myocardial infarction: when should we adjust for baseline characteristics? (Bailey). 2000;139:761-3 (Editorial)
- Clinical study to investigate the predictive parameters for the onset of atrial fibrillation in patients with essential hypertension (Ciaroni et al). 2000;139:814-9
- Clinical trials in acute myocardial infarction: should we adjust for baseline characteristics? (Steyerberg et al). 2000;139:745-51
- Comparison of the effects of alternate-day aspirin 81 mg and daily aspirin 162 mg on in-hospital cardiovascular events after myocardial infarction: an open-label, controlled, randomized clinical trial (Yasue et al). 2000;139:e4
- Current definitions of phases of investigation and the role of the FDA in the conduct of clinical trials (Temple). 2000;139:S133-S135
- Current perspectives on the design of phase II trials of new drugs for the treatment of heart failure (Packer). 2000;139:S202-S206
- Design of phase II trials in congestive heart failure (DeMets). 2000;139:S207-S210
- Differential clinical prognostic classifications in dilated and ischemic advanced heart failure: the EPICAL study (Alla et al). 2000;139:895-904
- Select-drop designs in clinical trials (Ellenberg). 2000;139:S158-S160
- Equivalence and noninferiority trials (Siegel). 2000;139:S166-S170

Congenital heart disease

- Determinants of delayed improvement in exercise capacity after percutaneous transvenous mitral commissurotomy (Tanabe et al). 2000;139:889-94
- Three-dimensional helical computed tomographic angiography in neonates and infants with complex congenital heart disease (Kawano et al). 2000;139:654-60

Congestive heart failure

- Differential clinical prognostic classifications in dilated and ischemic advanced heart failure: the EPICAL study (Alla et al). 2000;139:895-904
- Management of heart failure among very old persons living in long-term care: has the voice of trials spread? (Gambassi et al). 2000;139:85-93
- Neurohormonal activation in severe heart failure: relations to patient death and the effect of treatment with flosequinan (Moe et al). 2000;139:587-95
- Neutrophilia and congestive heart failure after acute myocardial infarction (Kyne et al). 2000;139:94-100
- Randomized trial of candesartan cilexetil in the treatment of patients with congestive heart failure and a history of intolerance to angiotensin-converting enzyme inhibitors (Granger et al). 2000;139:609-17

- Reduction of congestive heart failure symptoms by very early fibrinolytic therapy in acute myocardial infarction: a long-term follow-up (Gilon et al). 2000;139:1096-1100
- Transpulmonary passage of Albunex as a marker of intracardiac hemodynamics and outcome in chronic congestive heart failure (Sherman et al). 2000;139:782-87

Contrast echocardiography

- Quantification of mitral regurgitation in the cardiac catheterization laboratory with contrast echocardiography (Buckley et al). 2000;139:1109-13

Cooperative Cardiovascular Project

- Factors associated with delay in reperfusion therapy in elderly patients with acute myocardial infarction: analysis of the Cooperative Cardiovascular Project (Berger et al). 2000;139:985-92

Coronary angiograms

- Effect of variability in the interpretation of coronary angiograms on the appropriateness of use of coronary revascularization procedures (Leape et al). 2000;139:106-13

Coronary angiographic measures

- Serial quantitative coronary angiography and coronary events (Mack et al). 2000;139:993-9

Coronary angioplasty

- Suture closure of femoral arterial puncture sites after coronary angioplasty followed by same-day discharge (Carere et al). 2000;139:52-8

Coronary arteries

- Adjunctive intracoronary dipyridamole in the interventional treatment of small coronary arteries: a prospectively randomized trial (Heidland et al). 2000;139:1039-45

Coronary artery disease

- Accuracy of dobutamine technetium 99m sestamibi SPECT imaging for the diagnosis of single-vessel coronary artery disease: comparison with echocardiography (Elhendy et al). 2000;139:224-30
- Acute myocardial infarction in young adults: prognostic role of angiotensin-converting enzyme, angiotensin II type I receptor, apolipoprotein E, endothelial constitutive nitric oxide synthase, and glycoprotein IIIa genetic polymorphisms at medium-term follow-up (Brscic et al). 2000;139:979-84
- Association of remnant-like particle cholesterol with coronary artery disease in patients with normal total cholesterol levels (Masuoka et al). 2000;139:305-10

- Three-year survival of patients with heart failure caused by dilated cardiomyopathy and L-carnitine administration (Rizos). 2000;139:S120-S124

Diuretics

Diuretics and β -blockers: is there a risk for dyslipidemia? (Weir et al). 2000;139:174-84

Drugs

An FDA perspective on antiarrhythmic drugs in phase II trials (Lipicky). 2000;139:S197-S199

Doppler methods

Detection of left ventricular regional relaxations abnormalities and asynchrony in patients with hypertrophic cardiomyopathy with the use of tissue Doppler imaging (Oki et al). 2000;139:497-502

Impact of Doppler-derived left ventricular diastolic performance on exercise capacity in normal individuals (Okura et al). 2000;139:716-22

Mobile thrombi in the abdominal aorta in cases of lower extremity embolic arterial occlusion: value of extended transthoracic echocardiography (Spittell et al). 2000;139:241-4

Power Doppler harmonic imaging: a feasibility study of a new technique for the assessment of myocardial perfusion (Senior et al). 2000;139:245-51

Strategy for optimal aortic regurgitation quantification by Doppler echocardiography: agreement among different methods (Evangelista et al). 2000;139:773-81

Dyslipidemia

Diuretics and β -blockers: is there a risk for dyslipidemia? (Weir et al). 2000;139:174-84

E

Echocardiographic evaluation

Continuous monitoring of an endocardial index of myocardial contractility during head-up tilt test (Deharo et al). 2000;139:1022-9

Efficient utilization of echocardiography for the assessment of left ventricular systolic function (Talreja et al). 2000;139:394-8

Interpretation of echocardiographic measurements: a call for standardization (Vasan et al). 2000;139:412-22

Left ventricular function, cardiac dysrhythmias, atrial activation, and volumes in nondipper hypertensive individuals with left ventricular hypertrophy (Rizzo et al). 2000;139:529-36

Three-dimensional echocardiographic assessment of annular shape changes in the normal and regurgitant mitral valve (Kaplan et al). 2000;139:378-87

Echocardiography; see also Contrast echocardiography; Transesophageal echocardiography; Transthoracic echocardiography

Accuracy of dobutamine technetium 99m sestamibi SPECT imaging for the diagnosis of single-vessel coronary artery disease: comparison with echocardiography (Elhendy et al). 2000;139:224-30

Early dobutamine echocardiography predicts improvement in regional and global left ventricular function after reperfused acute myocardial infarction without residual stenosis of the infarct-related artery (Bolognese et al). 2000;139:153-63

Infusion versus bolus contrast echocardiography: a multicenter, open-label, crossover trial (Weissman et al). 2000;139:399-404

Safety assessment of perflubron emulsion for echocardiographic contrast enhancement in patients with congestive heart failure or chronic obstructive pulmonary disease (Kitzman et al). 2000;139:1077-80

Strategy for optimal aortic regurgitation quantification by Doppler echocardiography: agreement among different methods (Evangelista et al). 2000;139:773-81

Echocardiography study

Hemodynamic characteristics of congenital aortic stenosis: a quantitative stress echocardiography study (Battle et al). 2000;139:346-51

Spatial, individual, and temporal variation of the high-frequency QRS amplitudes in the 12 standard electrocardiographic leads (Pettersson et al). 2000;139:352-8

Electrocardiographic changes

A comparison of electrocardiographic changes during reperfusion of acute myocardial infarction by thrombolysis or percutaneous transluminal coronary angioplasty (Wehrens et al). 2000;139:431-6

Electrocardiographic evaluation

A controlled trial of cardiac rehabilitation in the home setting using electrocardiographic and voice transthelephonic monitoring (Ades et al). 2000;139:543-8

Increase in ST-segment elevation immediately after reperfusion: cause and meaning (Greenfield). 2000;139:390-1 (Editorial)

Embolic strokes

Low incidence of embolic strokes with atrial septal aneurysms: a prospective, long-term study (Burger et al). 2000;139:149-52

Endocardial index

Continuous monitoring of an endocardial index of myocardial contractility during head-up tilt test (Deharo et al). 2000;139:1022-9

Endothelial cell dysfunction

Endothelial cell dysfunction correlates differentially with survival in primary and secondary pulmonary hypertension (Lopes et al). 2000;139:618-23

EPICAL study

Determinants of angiotensin-converting enzyme inhibitor prescription in severe heart failure with left ventricular systolic dysfunction: the EPICAL study (Echemann et al). 2000;139:624-31

Escape rhythms

Prevalence and characteristics of escape rhythms after radiofrequency ablation of the atrioventricular junction: results from the Registry for AV Junction Ablation and Pacing in Atrial Fibrillation (Curtis et al). 2000;139:122-5

Estrogen replacement therapy

Long-term estrogen replacement therapy is associated with improved exercise capacity in postmenopausal women without known coronary artery disease (Redberg et al). 2000;139:739-44

Exercise factors

Clinical importance of risk factors and exercise testing for prediction of significant coronary artery stenosis in women recovering from unstable coronary artery disease: the Stockholm Female Coronary Risk Study (Al-Kahali et al). 2000;139:971-8

A controlled trial of cardiac rehabilitation in the home setting using electrocardiographic and voice transthelephonic monitoring (Ades et al). 2000;139:543-54

Determinants of delayed improvement in exercise capacity after percutaneous transvenous mitral commissurotomy (Tanabe et al). 2000;139:889-94

Effects of amlodipine on exercise tolerance, quality of life, and left ventricular function in patients with heart failure from left ventricular systolic dysfunction (Udelson et al). 2000;139:503-10

Effects of exercise on QT dispersion in ischemic heart disease (Romano) (Letter); (Meijs et al) (Reply). 2000;139:556-8

Hemodynamic characteristics of congenital aortic stenosis: a quantitative stress echocardiography study (Battle et al). 2000;139:346-51

Impact of Doppler-derived left ventricular diastolic performance on exercise capacity in normal individuals (Okura et al). 2000;139:716-22

Long-term estrogen replacement therapy is associated with improved exercise capacity in postmenopausal women without known coronary artery disease (Redberg et al). 2000;139:739-44

Physiologic response to gain and loss in coronary minimal

Exercise factors—cont'd

- luminal diameter in patients treated with coronary angioplasty: prediction of restenosis on the basis of exercise capacity (Jorgensen et al). 2000;139:482-90
- Predictors of death and reinfarction at 30 days after primary angioplasty: the GUSTO IIb and RAPPORT trials (Brenner et al). 2000;139:476-81
- Relation of changes over time in ventricular size and function to those in exercise capacity in patients with chronic heart failure (Florea et al). 2000;139:913-7
- Signal-averaged P-wave abnormalities and atrial size in patients with and without idiopathic paroxysmal atrial fibrillation (Ishimoto et al). 2000;139:684-9

Exercise testing

- Cardiopulmonary exercise testing and prognosis in severe heart failure: 14 mL/kg/min revisited (Myers et al). 2000;139:78-84

Exercise training

- Exercise training and myocardial remodeling in patients with reduced ventricular function: One-year follow-up with magnetic resonance imaging (Myers et al). 2000;139:252-61

F**Fabry's disease**

- New insights in cardiac structural changes in patients with Fabry's disease (Linhart et al). 2000;139:1101-8

Fibrinolytic therapy

- Spatial, individual, and temporal variation of the high-frequency QRS amplitudes in the 12 standard electrocardiographic leads (Pettersson et al). 2000;139:352-8

Heart failure

- Cardiopulmonary exercise testing and prognosis in severe heart failure: 14 mL/kg/min revisited (Myers et al). 2000;139:78-84
- Determinants of angiotensin-converting enzyme inhibitor prescription in severe heart failure with left ventricular systolic dysfunction: the EPICAL study (Echemann et al). 2000;139:624-31
- Differences between patients with heart failure treated by cardiologists, internists, family physicians, and other physicians: analysis of a large, statewide database (Philbin et al). 2000;139:491-6
- Effects of amlodipine on exercise tolerance, quality of life, and left ventricular function in patients with heart failure from left ventricular systolic dysfunction (Udelson et al). 2000;139:503-10
- Effects of losartan and captopril on left ventricular volumes in elderly patients with heart failure: results of the ELITE ventricular function substudy (Konstam et al). 2000;139:1081-7
- Efficacy and safety of calcium channel blockers in heart failure: focus on recent trials with second-generation dihydropyridines (de Vries et al). 2000;139:185-94
- Introduction. 2000;139:S1
- Predictors of readmission among elderly survivors of admission with heart failure (Krumholz et al). 2000;139:72-7

Heart failure management

- Management of heart failure among very old persons living in long-term care: has the voice of trials spread? (Gambassi et al). 2000;139:85-93

Heart failure treatment

- A rationale for the use of β -blockers as standard treatment for heart failure (Metra et al). 2000;139:511-21

Heart rate, increased

- Dynamics of low-frequency R-R interval oscillations preceeding spontaneous ventricular tachycardia (Shusterman et al). 2000;139:126-34

Heart rate variability

- Five-minute recording of heart rate variability in severe chronic heart failure: correlates with right ventricular function and prognostic implications (Lucreziotti et al). 2000;139:1088-95

Heart surgery

- Magnesium supplementation in the prevention of arrhythmias in pediatric patients undergoing surgery for congenital heart defects (Dorman et al). 2000;139:522-8

Heart transplantation

- Changes in lipoprotein(a) concentration after orthotopic heart transplantation (DeNofrio et al). 2000;139:729-33

Heparin

- Efficacy of low-molecular-weight heparin in acute coronary syndromes (Wallentin). 2000;139:S29-S32
- Heparin infusion prior to stenting (HIPS) trial: final results of a prospective, randomized, controlled trial evaluating the effects of local vascular delivery on intimal hyperplasia (Wilensky et al). 2000;139:1061-70
- Low-molecular-weight heparin as optimal solution to therapeutic heparinization (Singer et al) (Letter); (Becker) (Reply). 2000;139:558-60
- Therapeutic heparin concentrations augment platelet reactivity: implications for the pharmacologic assessment of the glycoprotein IIb/IIIa antagonist abciximab (Mascelli et al). 2000;139:696-702
- Transesophageal echocardiography guided enoxaparin antithrombotic strategy for cardioversion of atrial fibrillation: the ACUTE II pilot study (Murray et al). 2000;139:e5
- Will the use of low-molecular-weight heparin (enoxaparin) in patients with acute coronary syndrome save costs in Canada? (O'Brien et al). 2000;139:423-9

Heparin Infusion Prior to Stenting (HIPS)

- Heparin Infusion Prior to Stenting (HIPS) trial: final results of a prospective, randomized, controlled trial evaluating the effects of local vascular delivery on intimal hyperplasia (Wilensky et al). 2000;139:1061-70

Homocyst(e)line concentrations

- Association between total homocyst(e)line and the likelihood for a history of acute myocardial infarction by race and ethnicity: Results from the Third National Health and Nutrition Examination Survey (Giles et al). 2000;139:446-53

Hormone systems

- Neurohormonal modulation in cardiovascular disease (Unger). 2000;139:S2-S8

Hospitalization

- Changes over time in the incidence and case-fatality rates of primary ventricular fibrillation complicating acute myocardial infarction: perspectives from the Worcester Heart Attack Study (Thompson et al). 2000;139:1014-21
- Neutrophilia and congestive heart failure after acute myocardial infarction (Kyne et al). 2000;139:94-100
- Patient-specific dosing of IIb/IIIa antagonists during acute coronary syndromes: Rationale and design of the PARAGON B study (Moliterno et al). 2000;139:563-6
- Prehospital delay time in acute myocardial infarction: an exploratory study on relation to hospital outcomes and cost (Caldwell et al). 2000;139:788-96
- Transpulmonary passage of Albumin as a marker of intracardiac hemodynamics and outcome in chronic congestive heart failure (Sherman et al). 2000;139:782-87
- Trends in severity of hospitalized myocardial infarction: the Atherosclerosis Risk in Communities (ARIC) Study, 1987-1994 (Goff et al). 2000;139:874-9

Hypertension

- Clinical study to investigate the predictive parameters for the onset of atrial fibrillation in patients with essential hypertension (Ciaroni et al). 2000;139:814-9
- Endothelial cell dysfunction correlates differentially with survival in primary and secondary pulmonary hypertension (Lopes et al). 2000;139:618-23
- Left ventricular function, cardiac dysrhythmias, atrial activation, and volumes in nondipper hypertensive individuals with left ventricular hypertrophy (Rizzo et al). 2000;139:529-36
- Randomized trial of candesartan cilexetil in the treatment of patients with congestive heart failure and a history of intolerance to angiotensin-converting enzyme inhibitors (Granger et al). 2000;139:609-17
- Role of hypertension, diabetes, obesity, and race in the development of symptomatic myocardial dysfunction in a pre-

dominantly minority population with normal coronary arteries (Dwyer et al). 2000;139:297-304

Hypertrophic cardiomyopathy

- Detection of left ventricular regional relaxations abnormalities and asynchrony in patients with hypertrophic cardiomyopathy with the use of tissue Doppler imagine (Oki et al). 2000;139:497-502

Hypoxemia

- Relations among hypoxemia, sleep stage, and bradyarrhythmia during obstructive sleep apnea (Koehler et al). 2000;139:142-8

I

Infective endocarditis

- Clinical information determines the impact of transesophageal echocardiography on the diagnosis of infective endocarditis by the Duke criteria (Roe et al). 2000;139:945-51

Infusion

- Continuous intravenous quinidine infusion for the treatment of atrial fibrillation or flutter: a case series (LaPointe et al). 2000;138:114-21
- Infusion versus bolus contrast echocardiography: a multicenter, open-label, crossover trial (Weissman et al). 2000;139:399-404

Injury

- Increased glycolytic substrate protection improves ischemic cardiac dysfunction and reduced injury (Apstein). 2000;139:S107-S114

International Federation of Clinical Chemistry

- Interpretation of echocardiographic measurements: a call for standardization (Vasan et al). 2000;139:412-22

Intra-aortic balloon counterpulsation

- Sex and other predictors of intra-aortic balloon counterpulsation-related complications: prospective study of 1119 consecutive patients (Cohen et al). 2000;139:282-7

Intracoronary ultrasound

- Role of intracoronary ultrasound after high-pressure stent implantation (Choi et al). 2000;139:643-8

Intravascular ultrasound

- Natural history of intravascular ultrasound-detected edge dissections from coronary stent deployment (Sheris et al). 2000;139:59-63
- Sex differences in coronary artery size assessed by intravascular ultrasound (Sheifer et al). 2000;139:649-53

Intravascular ultrasound imaging

- Reproducibility of neointima quantification with motorized intravascular ultrasound pullback in stented coronary arteries (Regar et al). 2000;139:632-7

Intravenous amiodarone

- Long-term follow-up of patients requiring intravenous amiodarone to suppress hemodynamically destabilizing ventricular arrhythmias (Fogel et al). 2000;139:690-5

Iron

- The Iron (Fe) and Atherosclerosis Study (FeAST): a pilot study of reduction of body iron stores in atherosclerotic peripheral vascular disease (Zacharski et al). 2000;139:337-45

Ischemic stroke

- Aortic atheroma morphology and the risk of ischemic stroke in a multiethnic population (Di Tullio et al). 2000;139:329-36

K

Kawasaki disease

- Abnormal myocardial mechanics in Kawasaki disease: rapid response to γ -globulin (Moran et al). 2000;139:217-23

Kidney failure

Current status of prevention, diagnosis, and management of coronary artery disease in patients with kidney failure (Vaitkus). 2000;139:1000-8

L**L-Carnitine administration**

Three-year survival of patients with heart failure caused by dilated cardiomyopathy and L-carnitine administration (Rizos). 2000;139:S120-S124

Left ventricular dilatation

Myocardial infarction and left ventricular remodeling: results of the CEDIM trial (Colonna et al). 2000;139:S124-S130

Left ventricular dysfunction

When not doing tests is the right thing to do (Gibbons). 2000;139:388-9 (Editorial)

Left ventricular function

Early dobutamine echocardiography predicts improvement in regional and global left ventricular function after reperfused acute myocardial infarction without residual stenosis of the infarct-related artery (Bolognese et al). 2000;139:153-63

Left ventricular function, cardiac dysrhythmias, atrial activation, and volumes in nondipper hypertensive individuals with left ventricular hypertrophy (Rizzo et al). 2000;139:529-36

Left ventricular hypertrophy

New insights in cardiac structural changes in patients with Fabry's disease (Linhart et al). 2000;139:1101-8

Therapeutic options in minimizing left ventricular hypertrophy (Devereux). 2000;139:S9-S14

Left ventricular opacification

Infusion versus bolus contrast echocardiography: a multicenter, open-label, crossover trial (Weissman et al). 2000;139:399-404

Left ventricular systolic dysfunction

Determinants of angiotensin-converting enzyme inhibitor prescription in severe heart failure with left ventricular systolic dysfunction: the EPICAL study (Echemann et al). 2000;139:624-31

Left ventricular systolic function

Efficient utilization of echocardiography for the assessment of left ventricular systolic function (Talreja et al). 2000;139:394-8

Left ventricular systolic indexes

Impact of Doppler-derived left ventricular diastolic performance on exercise capacity in normal individuals (Okura et al). 2000;139:716-22

Leukocytosis

Effect of leukocytosis at initial examination on prognosis in patients with primary unstable angina (Lloyd-Jones et al). 2000;139:867-73

Lipoprotein(a)

Changes in lipoprotein(a) concentration after orthotopic heart transplantation (DeNofrio et al). 2000;139:729-33

Lipoprotein(a) in atrial fibrillation (Lip) (Letter); (Igarashi and Aizawa) (Reply). 2000;139:555-6

Relation between circadian patterns in levels of circulating lipoprotein(a), fibrinogen, platelets, and related lipid variables in men (Brenner et al). 2000;139:164-73

Low-density lipoprotein cholesterol

Statins: effective antiatherosclerotic therapy (Blumenthal). 2000;139:577-86

M**Magnesium**

Magnesium supplementation in the prevention of arrhythmias in pediatric patients undergoing surgery for congenital heart defects (Dorman et al). 2000;139:522-8

Rationale and design of the Magnesium in Coronaries

(MAGIC) study: a clinical trial to reevaluate the efficacy of early administration of magnesium in acute myocardial infarction (MAGIC Steering Committee). 2000;139:10-4

Magnesium deficiency

Benefits of magnesium in acute myocardial infarction: timing is crucial (Gyamiani et al). 2000;139:e2

Managed care

Medicaid, managed care, and the care of patients hospitalized for acute myocardial infarction (Sloan et al). 2000;139:567-77

Marfan syndrome

Peripheral resistance vessel dysfunction in Marfan syndrome (Nakamura et al). 2000;139:661-6

Medicaid

Medicaid, managed care, and the care of patients hospitalized for acute myocardial infarction (Sloan et al). 2000;139:567-77

Medical therapy

Chronic ischemic heart disease (Gent et al). 2000;139:S182-S188

Mitral repair in patients with a ruptured papillary muscle (Fasol et al). 2000;139:554-9

Mental stress

Effects of mental stress on brachial artery flow-mediated vasodilation in healthy normal individuals (Harris et al). 2000;139:405-11

Metabolic therapies

Increased glycolytic substrate protection improves ischemic cardiac dysfunction and reduced injury (Apstein). 2000;139:S107-S114

Minor myocardial necrosis

A double-blind, randomized study of the effect of immediate intravenous nitroglycerin on the incidence of post-procedural chest pain and minor myocardial necrosis after elective coronary stenting (Kurz et al). 2000;139:35-43

Mitral regurgitation

Quantification of mitral regurgitation in the cardiac catheterization laboratory with contrast echocardiography (Buckley et al). 2000;139:1109-13

Mitral valve prolapse syndrome

Angiotensin II type 1 receptor gene polymorphism and mitral valve prolapse syndrome (Szombathy et al). 2000;139:101-5

Mitral valve regurgitation

Mitral repair in patients with a ruptured papillary muscle (Fasol et al). 2000;139:549-55

Morbidity

Differences between patients with heart failure treated by cardiologists, internists, family physicians, and other physicians: analysis of a large, statewide database (Philbin et al). 2000;139:491-6

Mortality

Trends in severity of hospitalized myocardial infarction: the Atherosclerosis Risk in Communities (ARIC) Study, 1987-1994 (Goff et al). 2000;139:874-80

Mortality rate

Rationale and design of the Magnesium in Coronaries (MAGIC) study: a clinical trial to reevaluate the efficacy of early administration of magnesium in acute myocardial infarction (MAGIC Steering Committee). 2000;139:10-4

Myocardial contrast echocardiography

Assessment of resting perfusion with myocardial contrast echocardiography: theoretical and practical considerations (Lindner et al). 2000;139:231-40

Myocardial infarction

Myocardial infarction and left ventricular remodeling: results of the CEDIM trial (Colonna et al). 2000;139:S124-S130

Right ventricular function in patients with first inferior myocardial infarction: assessment by tricuspid annular motion and tricuspid annular velocity (Alam et al). 2000;139:710-5

Myocardial integrated backscatter

Myocardial integrated ultrasonic backscatter in patients with dilated cardiomyopathy: prediction of response to β -blocker therapy (Suwa et al). 2000;139:905-12

Myocardial mechanics

Abnormal myocardial mechanics in Kawasaki disease: rapid response to γ -globulin (Moran et al). 2000;139:217-23
Role of cutting balloon angioplasty before coronary stent implantation (Park et al). 2000;139:e1

Myocardial perfusion

Accuracy of dobutamine technetium 99m sestamibi SPECT imaging for the diagnosis of single-vessel coronary artery disease: comparison with echocardiography (Elhendy et al). 2000;139:224-30
Power Doppler harmonic imaging: a feasibility study of a new technique for the assessment of myocardial perfusion (Senior et al). 2000;139:245-51

Myocardial perfusion imaging

Detection of angiographically significant coronary artery disease with accelerated intermittent imaging after intravenous administration of ultrasound contrast material (Cwaig et al). 2000;139:675-83

Myocardial remodeling

Exercise training and myocardial remodeling in patients with reduced ventricular function: one-year follow-up with magnetic resonance imaging (Myers et al). 2000;139:252-61

Myocarditis

Abnormal myocardial mechanics in Kawasaki disease: rapid response to γ -globulin (Moran et al). 2000;139:217-23
Primary intracoronary stenting in acute myocardial infarction: long-term clinical and angiographic follow-up and risk factor analysis (Kastrati et al). 2000;139:208-16

N

National Cardiovascular Network database

Evolving trends in interventional device use and outcomes: results from the National Cardiovascular Network database (Peterson et al). 2000;139:198-207

National Cholesterol Education Program, The

Correlates of high HDL cholesterol among women with coronary heart disease (Bittner et al). 2000;139:288-96

National Heart, Lung, and Blood Institute Family Heart Study, The

Alcohol consumption and plasminogen activator inhibitor type 1: the National Heart, Lung, and Blood Institute Family Heart Study (Djoussé et al). 2000;139:704-9

Neuromuscular disease

Mitochondrial defects in cardiomyopathy and neuromuscular disease (Wallace). 2000;139:S70-S87

Neutrophilia

Neutrophilia and congestive heart failure after acute myocardial infarction (Kyne et al). 2000;139:94-100

Nicorandil

A comparison of nicorandil with isosorbide mononitrate in elderly patients with stable coronary heart disease: the SNAPE study (Ciampricotti et al). 2000;139:e3

Noncardiac chest pain

Role of soluble and platelet-bound P-selectin in discriminating cardiac from noncardiac chest pain at presentation in the emergency department (Gurbel et al). 2000;139:320-8

North American Pediatric Cardiomyopathy Registry

Design and implementation of the North American Pediatric Cardiomyopathy Registry (Grenier et al). 2000;139:S86-S95

Nitroglycerin

A double-blind, randomized study of the effect of immedi-

ate intravenous nitroglycerin on the incidence of post-procedural chest pain and minor myocardial necrosis after elective coronary stenting (Kurz et al). 2000;139:35-43

O

Optime CHF

Rationale and design of the OPTIME CHF trial: Outcomes of a Prospective Trial of Intravenous Milrinone for Exacerbations of Chronic Heart Failure (Cuffe et al). 2000;139:15-22

P

Papillary muscle

Mitral repair in patients with a ruptured papillary muscle (Fasol et al). 2000;139:549-54

PARAGON B study

Patient-specific dosing of IIb/IIIa antagonists during acute coronary syndromes: rationale and design of the PARAGON B study (Moliterno et al). 2000;139:563-6

Patient management

Differential clinical prognostic classifications in dilated and ischemic advanced heart failure: the EPICAL study (Alla et al). 2000;139:895-904

Percutaneous coronary artery intervention

Percutaneous coronary artery intervention: the last five years and the next five years (Feit). 2000;139:195-7 (Editorial)

Percutaneous coronary interventional procedures

Prediction of death after percutaneous coronary interventional procedures (Rihal et al). 2000;139:1032-8

Percutaneous transluminal coronary angioplasty

Adjunctive intracoronary dipyridamole in the interventional treatment of small coronary arteries: a prospectively randomized trial (Heidland et al). 2000;139:1039-45

Clinical and angiographic outcome after angiography-guided stent placement in small coronary vessels (Lau et al). 2000;139:830-9

A double-blind, randomized study of the effect of immediate intravenous nitroglycerin on the incidence of postprocedural chest pain and minor myocardial necrosis after elective coronary stenting (Kurz et al). 2000;139:35-43

Effect of variability in the interpretation of coronary angiograms on the appropriateness of use of coronary revascularization procedures (Leape et al). 2000;139:106-13

Heparin infusion prior to stenting (HIPS) trial: final results of a prospective, randomized, controlled trial evaluating the effects of local vascular delivery on intimal hyperplasia (Wilensky et al). 2000;139:1061-70

Physiologic response to gain and loss in coronary minimal luminal diameter in patients treated with coronary angioplasty: prediction of restenosis on the basis of exercise capacity (Jorgensen et al). 2000;139:482-90

Reduced thrombus burden with abciximab delivered locally before percutaneous intervention in saphenous vein grafts (Barnes et al). 2000;139:824-9

Percutaneous transluminal coronary revascularization

The PRESTO (Prevention of Restenosis with Tranilast and its Outcomes) protocol: a double-blind placebo-controlled trial (Holmes et al). 2000;139:23-31

Perflenenapent emulsion

Safety assessment of perflenenapent emulsion for echocardiographic contrast enhancement in patients with congestive heart failure or chronic obstructive pulmonary disease (Kitzman et al). 2000;139:1077-80

Perfusion

Assessment of resting perfusion with myocardial contrast echocardiography: theoretical and practical considerations (Lindner et al). 2000;139:231-40

Pericardial fluid

Pericardial and pleural effusions in decompensated chronic heart failure (Kataoka). 2000;139:924-5 (Reply)

Phase II clinical trials

Introduction (Califf et al). 2000;139:S131-S210
Challenges in the conduct and interpretation of phase II (pilot) randomized trials (Yusuf). 2000;139:S136-S142
Economic end points in phase II trials (Mark et al). 2000;139:S155-S157
Role of clinical nonfatal end points in cardiovascular phase II/III clinical trials, The (O'Connor et al). 2000;139:S143-S154
Sample size and interim analysis issues for close selection (Lee). 2000;139:S161-S165
How should phase II trials in cardiovascular medicine be conducted? (Califf et al). 2000;139:S131-S132

Phase III clinical trials

Challenges in the conduct and interpretation of phase II (pilot) randomized trials (Yusuf). 2000;139:S136-S142
Role of clinical nonfatal end points in cardiovascular phase II/III clinical trials, The (O'Connor et al). 2000;139:S143-S154
Sample size and interim analysis issues for close selection (Lee). 2000;139:S161-S165
Alcohol consumption and plasminogen activator inhibitor type 1: the National Heart, Lung, and Blood Institute Family Heart Study (Djoussé et al). 2000;139:704-9
Surrogate end points in cardiovascular disease trials (Fleming). 2000;139:S193-S196

Platelet activation

Cigarette smoking status and outcome among patients with acute coronary syndromes without persistent ST-segment elevation: Effect of inhibition of platelet glycoprotein IIb/IIIa with eptifibatide (Hasdai et al). 2000;139:454-60

Platelets

Design of the Blockade of the Glycoprotein IIb/IIIa Receptor to Avoid Vascular Occlusion (BRAVO) trial (Topol et al). 2000;139:927-33
Platelet glycoprotein IIb/IIIa receptor blockers: an appropriate-use model for expediting care in acute coronary syndromes (Kereiakes et al). 2000;139:S53-S60
Therapeutic heparin concentrations augment platelet reactivity: Implications for the pharmacologic assessment of the glycoprotein IIb/IIIa antagonist abciximab (Mascelli et al). 2000;139:696-702

Pleural effusions

Pericardial and pleural effusions in decompensated chronic heart failure (Kataoka). 2000;139:918-23

Pregnancy

Effect of pregnancy on the duration of bovine pericardial bioprostheses (James) (Letter); (Salazar) (Reply). 2000;139:924-5

PRESTO

The PRESTO (Prevention of Restenosis with Tranilast and its Outcomes) protocol: a double-blind placebo-controlled trial (Holmes et al). 2000;139:23-31

Prodromal angina pectoris

Beneficial effect of prodromal angina pectoris is lost in elderly patients with acute myocardial infarction (Ishihara et al). 2000;139:881-8

Program on the Surgical Control of the Hyperlipidemias (POSCH) trial

Serial quantitative coronary angiography and coronary events (Mack et al). 2000;139:993-9

Proteinuria

Influence of proteinuria on long-term outcome among

patients with diabetes: the evidence continues to accumulate (McGuire). 2000;139:934-5 (Editorial)

Proteinuria is a key determinant of death in patients with diabetes after isolated coronary artery bypass grafting (Marso et al). 2000;139:939-44

Q**Quality-adjusted life**

Estimating the distribution of quality-adjusted life with censored data (Tsiatis). 2000;139:S177-S181

Quantitative coronary angiography

Serial quantitative coronary angiography and coronary events (Mack et al). 2000;139:993-9

R**Racial factors**

Race and sex differences in the management of coronary artery disease (Sheifer et al). 2000;139:848-57
Severity of coronary artery disease in black and white male veterans and likelihood of revascularization (Peniston et al). 2000;139:840-7
Understanding racial differences in cardiovascular care and outcomes: issues for the new millennium. 2000;139:764-6 (Editorial)

Rapid eye movement

Relations among hypoxemia, sleep stage, and bradyarrhythmia during obstructive sleep apnea (Koehler et al). 2000;139:142-8

Renal artery angioplasty

Renal artery angioplasty and stent placement: predictors of a favorable outcome (Burket et al). 2000;139:64-71

Renal artery stenosis

Renal artery angioplasty and stent placement: predictors of a favorable outcome (Burket et al). 2000;139:64-71

Renin-angiotensin system

Introduction. 2000;139:S1

Reperfusion

A comparison of electrocardiographic changes during reperfusion of acute myocardial infarction by thrombolysis or percutaneous transluminal coronary angioplasty (Wehrens et al). 2000;139:431-6

Increase in ST-segment elevation immediately after reperfusion: cause and meaning (Greenfield). 2000;139:390-1 (Editorial)

Prehospital delay time in acute myocardial infarction: an exploratory study on relation to hospital outcomes and cost (Caldwell et al). 2000;139:788-96

Regulation of carbohydrate metabolism in ischemia and reperfusion (Lopaschuk). 2000;139:S115-S119

Reperfusion therapy

Factors associated with delay in reperfusion therapy in elderly patients with acute myocardial infarction: analysis of the Cooperative Cardiovascular Project (Berger et al). 2000;139:985-92

Restenosis

The PRESTO (Prevention of Restenosis with Tranilast and its Outcomes) protocol: a double-blind placebo-controlled trial (Holmes et al). 2000;139:23-31

Restenosis

Physiologic response to gain and loss in coronary minimal luminal diameter in patients treated with coronary angioplasty: prediction of restenosis on the basis of exercise capacity (Jorgensen et al). 2000;139:482-90

Right ventricular function

Right ventricular function in patients with first inferior myocardial infarction: assessment by tricuspid annular motion and tricuspid annular velocity (Alam et al). 2000;139:710-5

Right ventricular outflow tract tachycardia

Sex-specific triggers for right ventricular outflow tract tachycardia (Marchlinski et al). 2000;139:1009-13

Risk factors

Clinical importance of risk factors and exercise testing for prediction of significant coronary artery stenosis in women recovering from unstable coronary artery disease: the Stockholm Female Coronary Risk Study (Al-Khalili et al). 2000;139:971-8

S

Saphenous vein graft treatment

Reduced thrombus burden with abciximab delivered locally before percutaneous intervention in saphenous vein grafts (Barsness et al). 2000;139:824-9

Sex factors

Race and sex differences in the management of coronary artery disease (Sheifer et al). 2000;139:848-57
Sex and other predictors of intra-aortic balloon counterpulsation-related complications: prospective study of 1119 consecutive patients (Cohen et al). 2000;139:282-7
Sex differences in coronary artery size assessed by intravascular ultrasound (Sheifer et al). 2000;139:649-53
Sex-specific triggers for right ventricular outflow tract tachycardia (Marchlinski et al). 2000;139:1009-13

Signal-averaged P-wave abnormalities

Signal-averaged P-wave abnormalities and atrial size in patients with and without idiopathic paroxysmal atrial fibrillation (Ishimoto et al). 2000;139:684-9

Smoking

Cigarette smoking status and outcome among patients with acute coronary syndromes without persistent ST-segment elevation: effect of inhibition of platelet glycoprotein IIb/IIIa with eptifibatide (Hasdai et al). 2000;139:454-60

Sports medicine

Aortic root dilation among young competitive athletes: Echocardiographic screening of 1929 athletes between 15 and 34 years of age (Kinoshita et al). 2000;139:723-8

Statins

Statins: effective antiatherosclerotic therapy (Blumenthal). 2000;139:577-86

Stent deployment

Nonrandomized comparison between stent deployment and percutaneous transluminal coronary angioplasty in acute myocardial infarction (Katz et al). 2000;139:44-51

Stent implantation

Early results and medium-term follow-up of stent implantation for mild residual or recurrent aortic coarctation (Marshall et al). 2000;139:1054-60
Multivessel coronary stenting versus bypass surgery in patients with multivessel coronary artery disease and normal left ventricular function: immediate and 2-year long-term follow-up (Kim et al). 2000;139:638-42
Natural history of intravascular ultrasound-detected edge dissections from coronary stent deployment (Sheris et al). 2000;139:59-63
Percutaneous coronary artery intervention: the last five years and the next five years (Feit). 2000;139:195-7
Reproducibility of neointima quantification with motorized intravascular ultrasound pullback in stented coronary arteries (Regar et al). 2000;139:632-7

Role of cutting balloon angioplasty before coronary stent implantation (Park et al). 2000;139:e1

Role of intracoronary ultrasound after high-pressure stent implantation (Choi et al). 2000;139:643-8

Stent placement

Adjunctive intracoronary dipyridamole in the interventional treatment of small coronary arteries: a prospectively randomized trial (Heidland et al). 2000;139:1039-45
Clinical and angiographic outcome after angiography-guided stent placement in small coronary vessels (Lau et al). 2000;139:830-9
Primary intracoronary stenting in acute myocardial infarction: Long-term clinical and angiographic follow-up and risk factor analysis (Kastrati et al). 2000;139:208-16
Renal artery angioplasty and stent placement: predictors of a favorable outcome (Burket et al). 2000;139:64-71

Stent treatment

Endovascular stent treatment of aortic coarctation (Sanders). 2000;139:936-8 (Editorial)

Stents

Stents covered by autologous venous grafts: feasibility and immediate and long-term results (Stefanadis et al). 2000;139:437-45

Subgroup analyses

Subgroups, treatment effects, and baseline risks: some lessons from major cardiovascular trials (Parker et al). 2000;139:952-61

Surgery; see Bypass surgery; Heart surgery

T

Third National Health and Nutrition Examination Survey

Prevalence of nonfatal coronary heart disease among American adults (Ford et al). 2000;139:371-7

Thrombolysis in myocardial infarction

Review of immediate angioplasty after fibrinolytic therapy for acute myocardial infarction: insights from the RESCUE II, RESCUE II, and other contemporary clinical experiences (Ellis et al). 2000;139:1046-53

Thrombosis

Design of the Blockade of the Glycoprotein IIb/IIIa Receptor to Avoid Vascular Occlusion (BRAVO) trial (Topol et al). 2000;139:927-33

Tissue Doppler imaging; see Doppler methods

Transesophageal echocardiography

Clinical information determines the impact of transesophageal echocardiography on the diagnosis of infective endocarditis by the Duke criteria (Roe et al). 2000;139:945-51
Low incidence of embolic strokes with atrial septal aneurysms: a prospective, long-term study (Burger et al). 2000;139:149-52
Mobile thrombi in the abdominal aorta in cases of lower extremity embolic arterial occlusion: value of extended transthoracic echocardiography (Spittell et al). 2000;139:241-4
Sensitivity and specificity of transesophageal echocardiography for determination of aortic valve morphology (Espinal et al). 2000;139:1071-6
Transesophageal echocardiography guided enoxaparin antithrombotic strategy for cardioversion of atrial fibrillation: the ACUTE II pilot study (Murray et al). 2000;139:e5

Transthoracic echocardiography

Clinical information determines the impact of transthoracic echocardiography on the diagnosis of infective endocarditis by the Duke criteria (Roe et al). 2000;139:945-51
Mobile thrombi in the abdominal aorta in cases of lower extremity embolic arterial occlusion: Value of extended transthoracic echocardiography (Spittell et al). 2000;139:241-4
